Current Workflows

Current Manual Processes

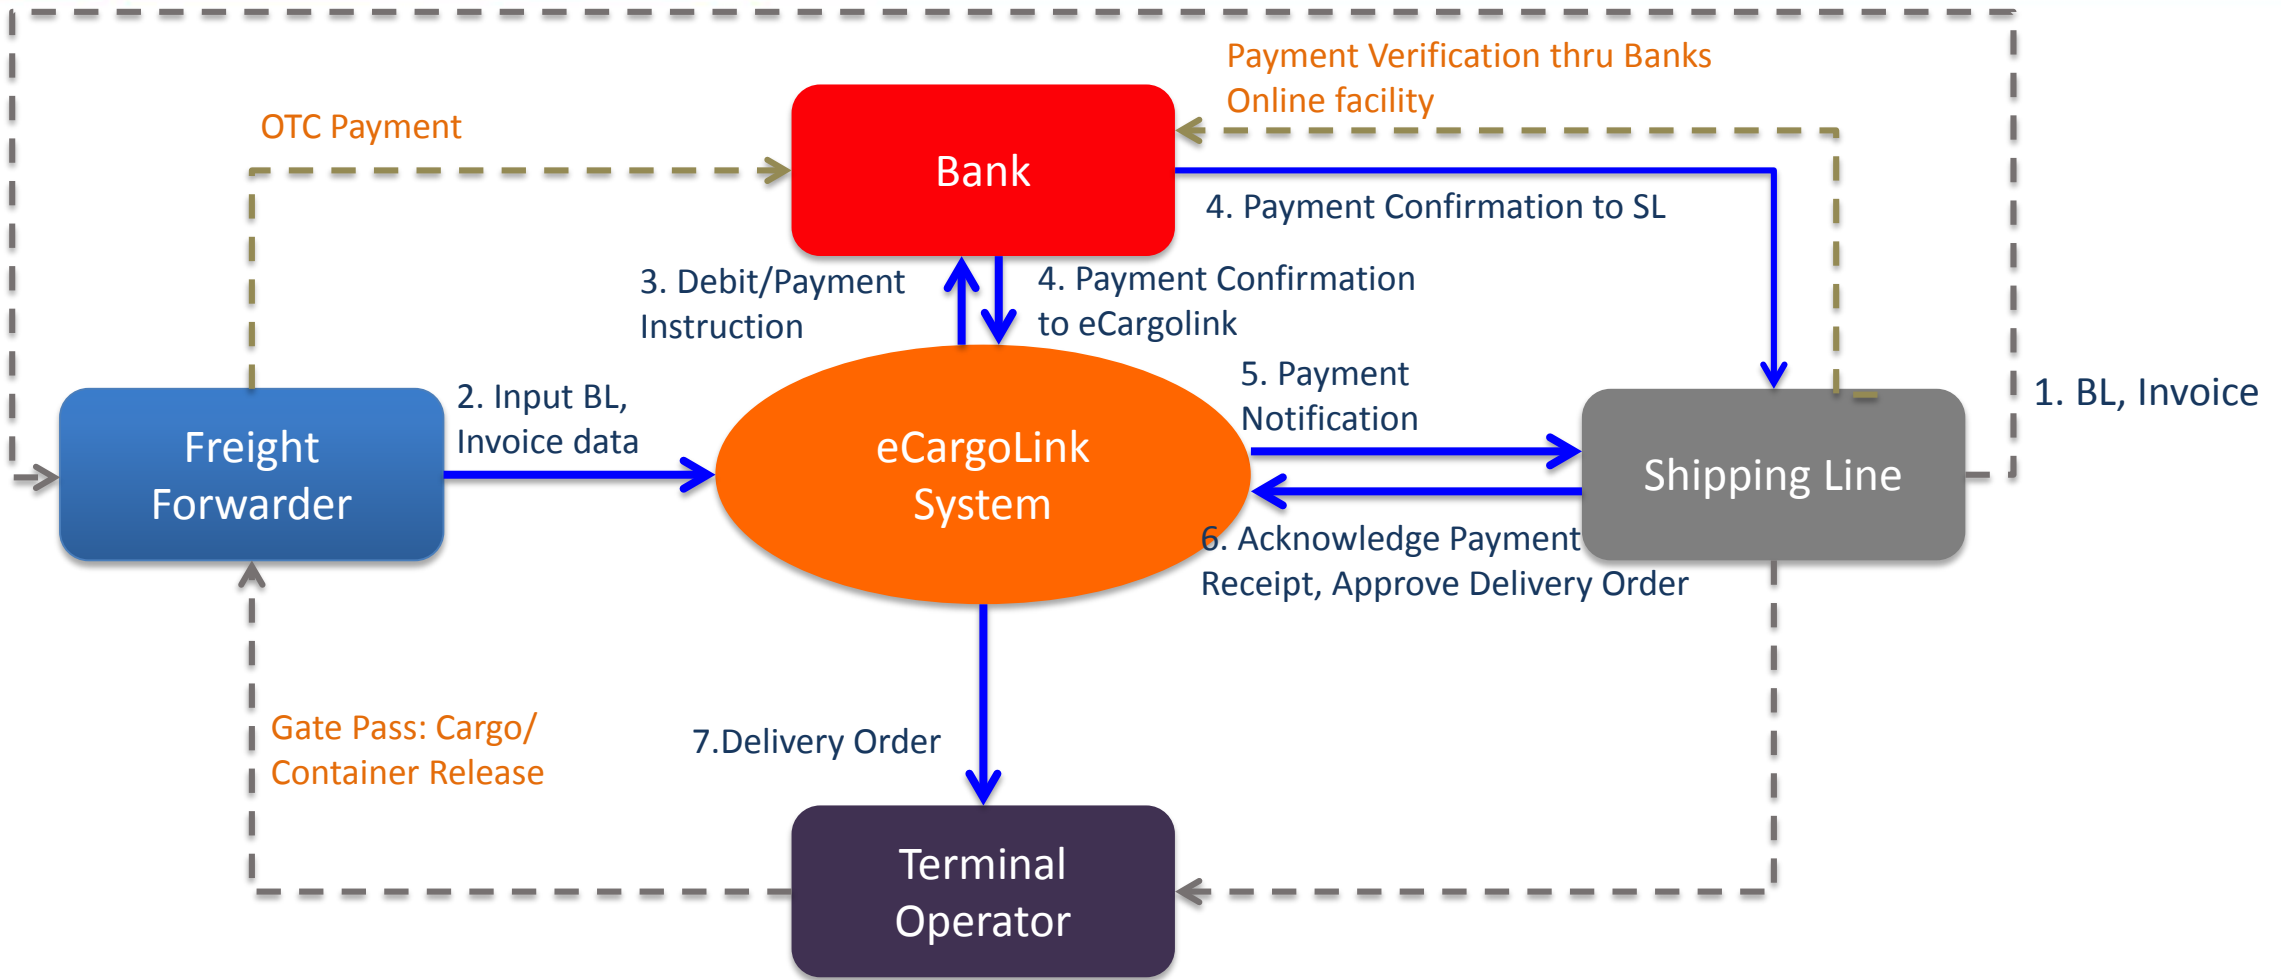

1. Forwarder receives of SOA/Invoice and BL from shipping lines
2. Forwarder withdraws from bank or OTC e-transfer of funds, and remits Cash or MC to shipping lines
3. Shipping line issues Official Receipt, and issues Delivery Order, to forwarder
4. Shipping line submits Delivery Order to Terminal Operator
5. Terminal Operator receives Delivery Order, and payment for terminal fees, then issues Gate Pass for the release of cargo

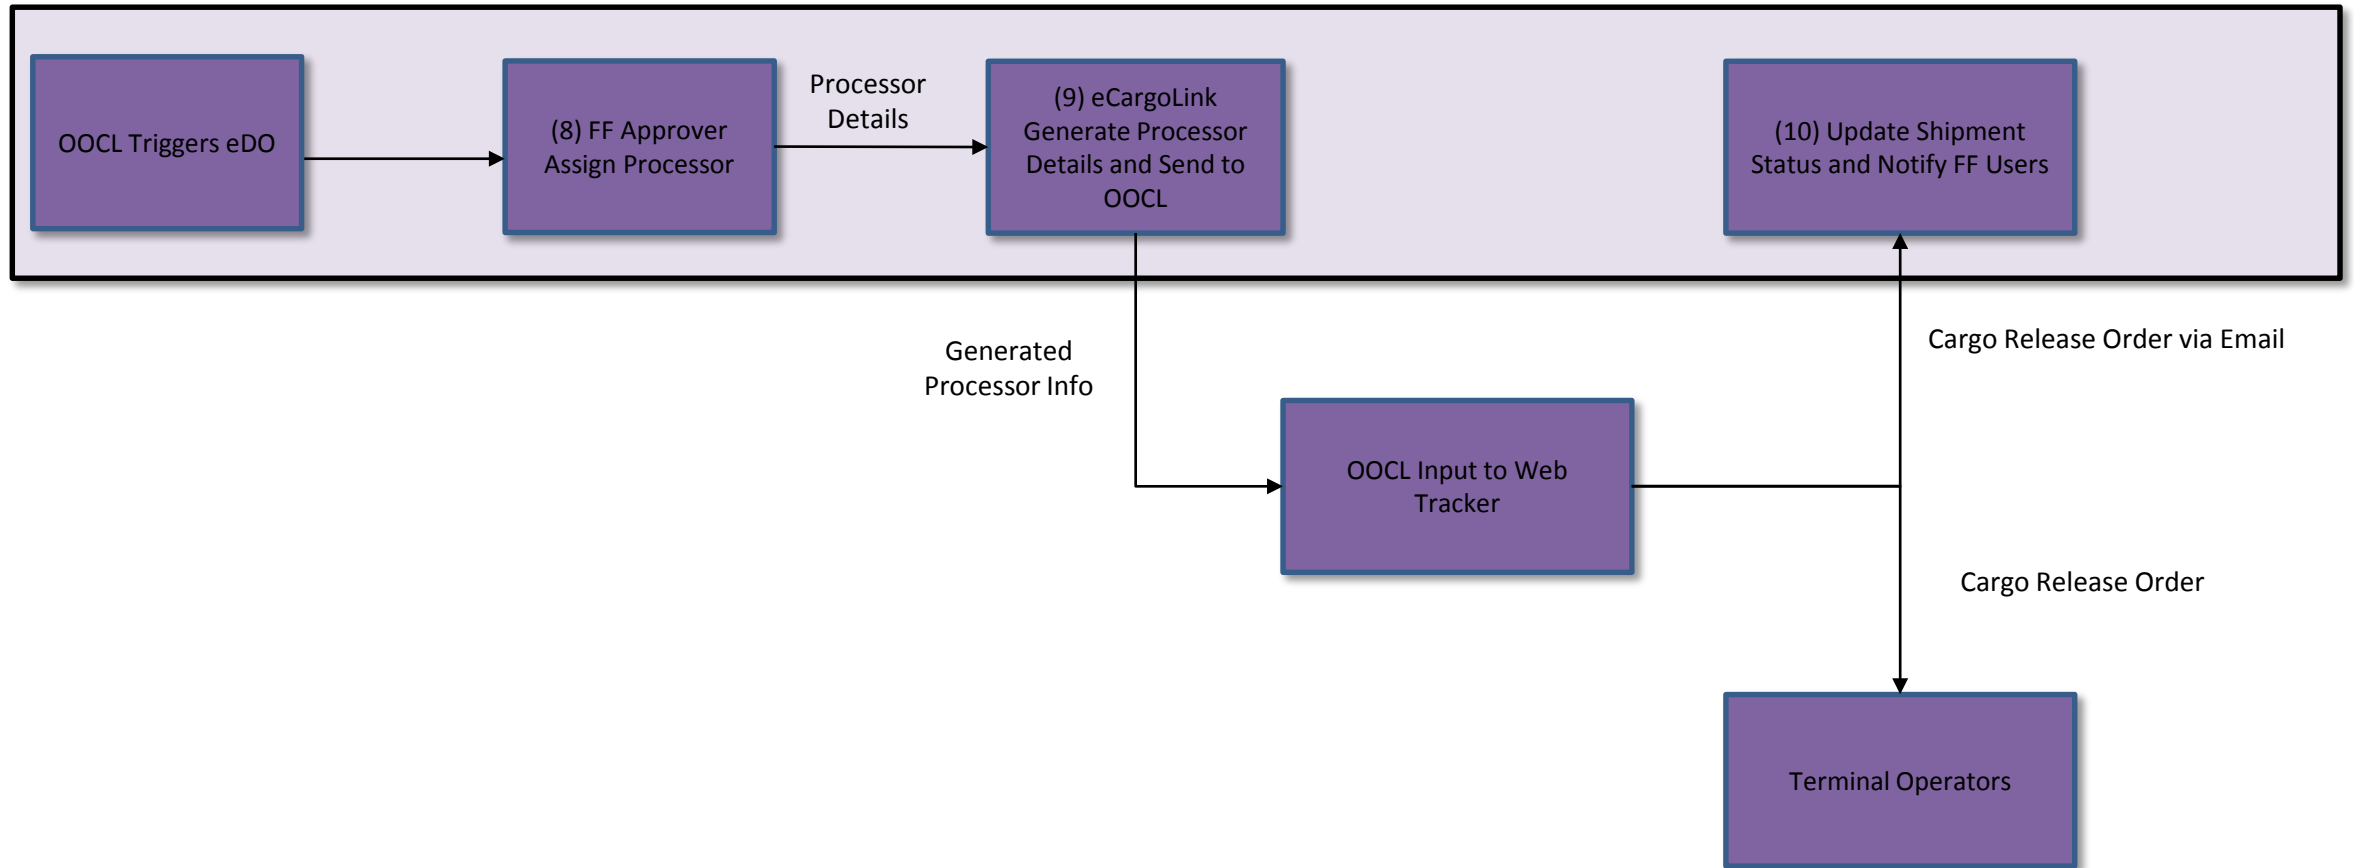

Current Challenges

- Costs:
 - Man-hours, transportation expenses, bank charges i.e. Manager's Check
 - Other admin expenses
- Risk of loss due to handling of cash
- Possible delays in the release of consignments, resulting to demurrage and storage costs
- Authenticity of Delivery Order
- Identity of authorized Officer to withdraw container/cargo from Terminal Operator

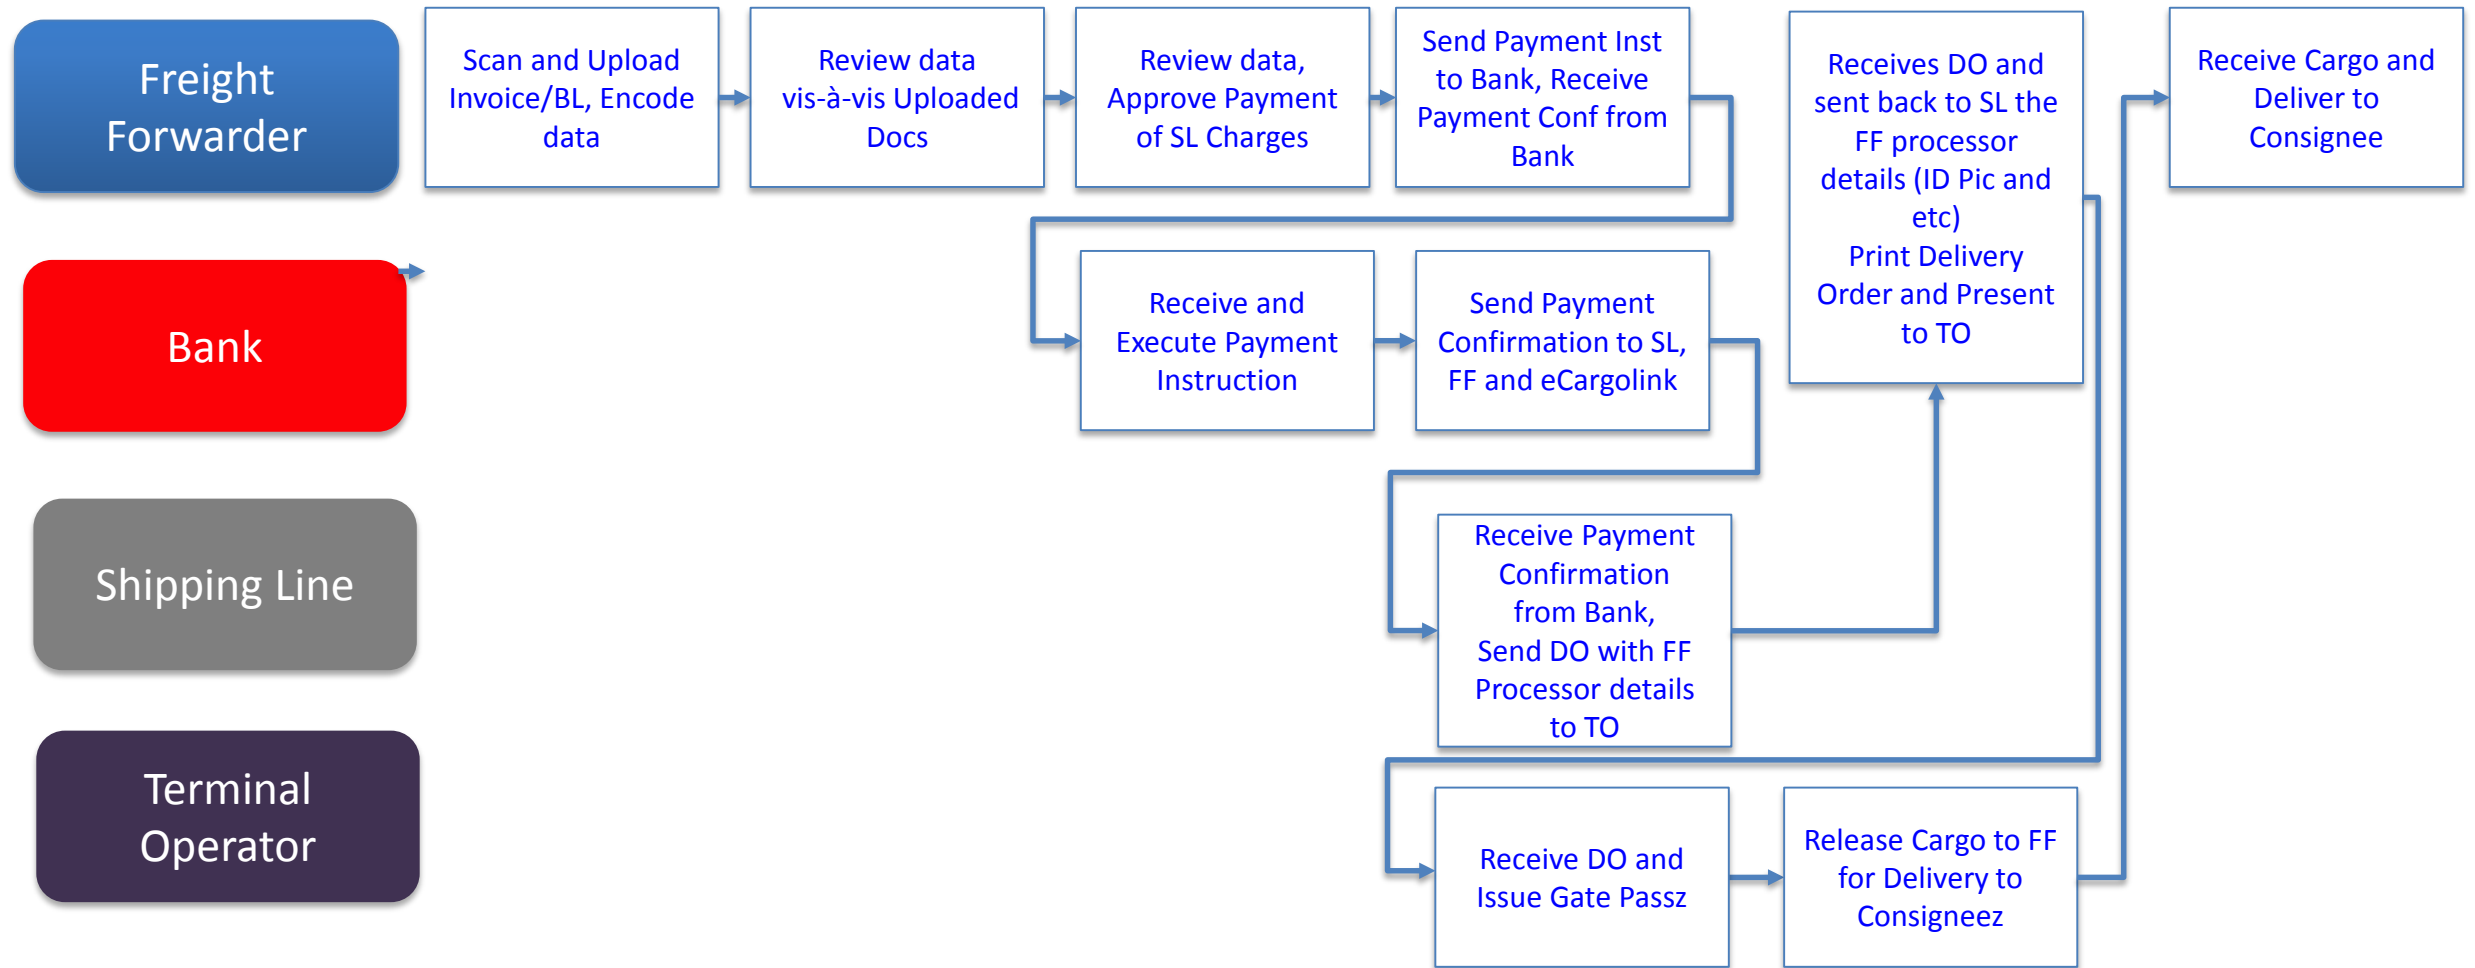

eCargoLink Workflow: Payment to Delivery Order

Additional Process

eCargoLink Workflows: Payment of SL Charges

Streamlined Payment Workflows

1. Forwarder with direct interface to bank for online debit/payment instruction to bank, for credit to the account of the shipping line
2. Bank sends confirmation to the Forwarder thru the eCargolink
3. Shipping line also receives email on the payment confirmation directly from the bank. Then confirms the auto generate Delivery Order and its transmission to Terminal Operator;
Shipping Line may further verify payment online thru bank's electronic banking facility.
4. Terminal Operator online receipt of Delivery Order and issues its GatePass for the release of containers

eCargolink Features

- Online system, linked to PMTLAI portal - Mobile ready - accessible using mobile devices
- Secure access for registered users: Forwarders, Shipping lines, Terminal Operators
- Online input of data, upload scanned documents and verification of data vis-à-vis scanned documents ([side-by-side](#))
- Payment confirmation sent by bank to portal and direct to shipping line
- Auto-generation of Delivery Order, and transmission/email notification to Terminal Operator
- Online printing of Delivery Order by Forwarder
- Online Dashboard and Management Reports

eCargolink Benefits

- Eliminate costs and man-hours due to over-the-counter payments
- Secure payment, eliminate handling of cash
- Eliminate delays in release of cargo
- OOCL Express Lane for endorsements of documents for submission to Customs and PEZA

PILOT RUN

- First week of October 2019
- 4 PMTLAI Members (KWE, MoveIT, Stamm and Hankyu)
- OOCL
- Banco De Oro

OOCL PROCESS

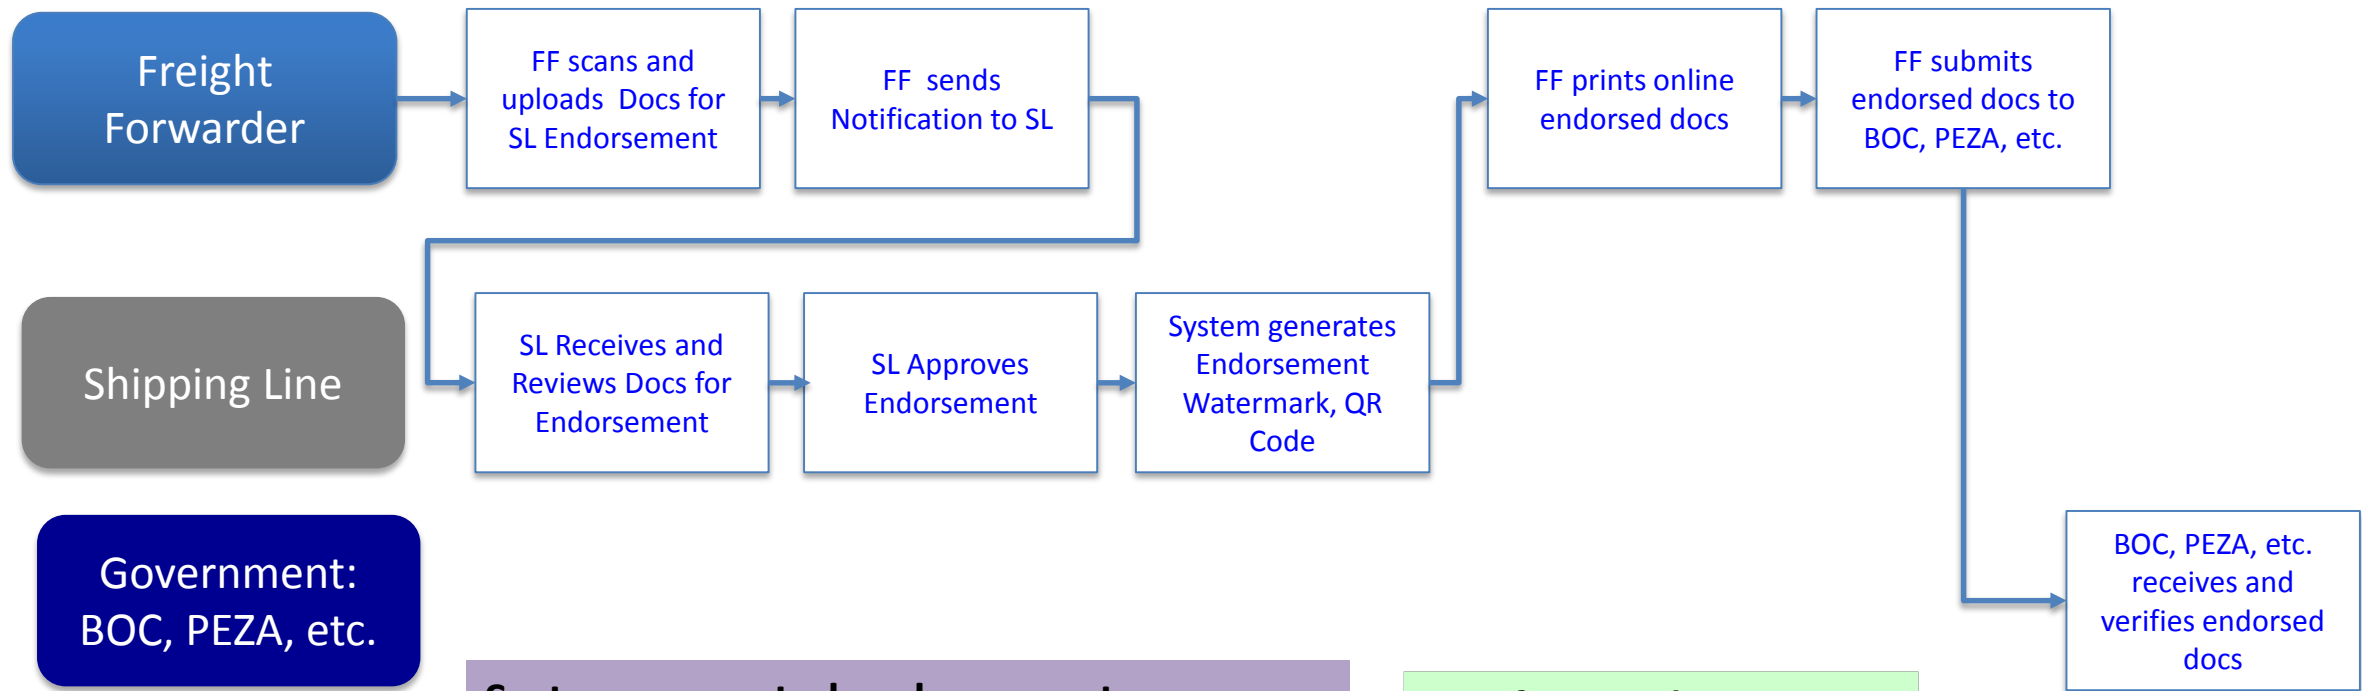

- OOCL will set up their internal KPI and provide immediate action of eDO issuance once they received the payment online
- Set up of VIP/Express lane for PMTLAI members that will request for endorsement (stamping) of their documents.

Coming Soon

- To include other major banks and payment facilities
- Additional Shipping Lines
- Electronic endorsement of documents to be accepted by Shipping Lines, BOC and other government agencies.
- Integration with major ports

eCargoLink Workflows: Online Endorsement of Documents

Government:
BOC, PEZA, etc.

System generated endorsement watermarks provide :
