# What is CLA?

An alternative solution to replace container deposit management by the SL.

CLA first implemented in Malaysia in **2019** as a voluntary solution to resolve the complaints faced by importer/brokers on the container deposit collection by SL.

CLA solution is patented in Malaysia, Indonesia and Philippines.

**Status to-date : 2,800+ CLA consignees/brokers & 50 CLA shipping lines/shipping agents/NVOCCs with 3M+ TEUs transacted in CLA portal.**

AISL who recognized the success of CLA in Malaysia, initiated this solution to address the industry outcry on container deposit management by the shipping lines in Philippines.

# Current Problems vs CLA Solution

**Problem :** Late return of container deposit refund, from 1 - 6 months or more than a year.

**CLA Solution :** Refund is made **within three (3) days** upon validation by SL.

**Problem :** Administrative burden due to compilation of supporting documents to request for refund from SL.

**CLA Solution :** **No supporting documents** are required.

**Problem :** Cash flow constraint due to funds outflow exceeded inflow.

**CLA Solution :** **Cash flow planning is enhanced** due to early refund of deposit.
